Virtual Assistants Insurance Program 2021

Professional Indemnity Insurance Program 2021

Professional Indemnity Insurance is a form of liability insurance that helps protect professionals when providing advice and service from the cost of defending against a negligence claim made by a client and if damages are awarded in such a civil lawsuit.

Cover is provided for alleged failure to provide services either by error or omission resulting in a client suffering a financial loss.

How Does Professional Indemnity Insurance Work?

Example: You did some work for a client in 2019, however it is not until 2021 that the client believes your work and advice has caused them a financial loss and they lodge a formal complaint with you. This is the date a claim may exist and this will be the date you need current Professional Indemnity Insurance even though the work occurred some 2 years previous.

This is why it is so important to continue to renew your insurance each year.

Public Liability Insurance

If you have your Professional Indemnity Insurance with IME Insurance Brokers as part of this insurance program we can offer you the following preferential insurance cover and premiums for your Public Liability Insurance.

Public Liability Insurance protects your business for negligence which results in someone being injured or someone's property being damaged. With society becoming more litigious, it is important that you can go about your day to day business activities with the security provided by this cover.

A simple example of a claim could be a client tripping over your laptop cable used by you when you are visiting their premises or when they are visiting your premises and suffering injuries resulting in them not being able to work for an indefinite period. As this is not Professional advice you would need a Public Liability Insurance policy which covers the cost of the claim after negligence has been established, or, if no negligence is involved, provide cover for the legal defence costs.
